

## Tips on Preparing for Reptiles Alive Small Group Birthday Shows

1. Close PARKING must be provided for the RA wildlife educator so the animals may be safely loaded to the performance area.
2. Audience sizes of 15 or less guests are great for hands-on, interactive live animal shows. Our small party show is available for groups of up to 25. Let us know in advance if more than 25 guests may be participating so the booking can be switched to our big group birthday show.
3. Children 2 and younger should not be allowed to touch live animals.
4. Audience members should be seated in one single file row so everybody gets a "front row" seat.
5. The largest indoor room with the least amount of furniture will be the best place to perform your show. Outside shows can be performed if the temperature is above 65 degrees F and there is shade.
6. Remove all pets (except fish) from the performance area before the show.
7. Please do not allow children or adults to walk behind, to the side, or within 6 feet of the educator during the program.
8. Food/beverages should not be served during the live animal show.
9. All show participants must wash their hands with soap and water after touching animals. Adults should supervise younger children to make sure hand washing is done correctly.
10. Please start your party at least 30 minutes before the start of your Reptiles Alive show.
11. Tipping educators for a job well done is appreciated.

Please contact us with any questions or concerns before your show.

Thank you so much for booking with Reptiles Alive!
